RESUME SUMMARY

Motivated M.Sc. Statistics student with hands-on experience in full-stack development, business analysis, and data visualization. Skilled in React.js, Django, SQL, Excel, and Power BI, with experience building dashboards, integrating APIs, and solving real-world technical problems in live projects. Passionate about software development and data-driven decision-making.

EDUCATION

Master's in Statistics MIT-World Peace University <i>CGPA: 8.02</i>	2024 – Present
Bachelor's in Statistics B.P.H.E Society's Ahmednagar College <i>CGPA: 8.45</i>	2021 – 2024

EXPERIENCE

Full Stack Developer Intern <i>Bizmetrics, Pune (On-site)</i>	Jan 2026 – April 2026
---	-----------------------

- Worked on a production-level trading platform using React.js and Django
- Integrated frontend dashboards with backend REST APIs
- Worked on portfolio and challenge management systems
- Debugged frontend/backend integration and API-related issues
- Collaborated using Git and GitHub workflows
- Improved dashboard consistency and user interface functionality

Business Analyst Intern <i>Shreyas Developers, Ahmednagar (Hybrid)</i>	June 2025 – August 2025
--	-------------------------

- Transformed raw real estate data into clear insights using Excel and Power BI for interactive visual storytelling
- Built a clear, interactive dashboard with five key visuals to compare unit profitability, area efficiency, and revenue contribution
- Compared profitability across 36 units, pinpointing high-revenue opportunities and design inefficiencies
- Delivered strategic recommendations to optimize pricing and space utilization for greater profitability

PROJECTS

Customer Churn Analysis

- Worked with a dataset of 10,000 bank customers to understand why clients stop using banking services
- Used R, Python, and Excel to study key behavioral and demographic patterns affecting customer retention
- Applied t-test, chi-square, and survival analysis to find meaningful trends and relationships in the data
- Built and compared Logistic Regression, Decision Tree, and Random Forest models; identified low balance and short tenure as the strongest churn indicators

Milk Delivery Management ERP System

- Developed a Milk Delivery Management ERP System to streamline customer, subscription, delivery, and billing workflows
- Automated operational processes through centralized data management, improving record accuracy and efficiency
- Designed modules for customer management, subscription tracking, order processing, and billing operations
- Built a full-stack solution using React, Django, REST APIs, and SQLite, gaining hands-on experience in business process automation

SKILLS

Technical: React.js, Django, Python, R, SQL, REST APIs, Git, GitHub, SQLite

Tools: Microsoft Excel, Power BI, PowerPoint

Soft Skills: Presentation & Pricing Support, Time Management, Teamwork

CERTIFICATIONS

- Data Visualization – Forage
- MS Excel – Simplilearn

EXTRA-CURRICULAR

Organized and led an Indian Mathematical Society event, coordinating teams for seamless execution and positive participant feedback.
